

D 300 - Water Cooler Machine

Main Applications

- Water Cooled GMAW / MIG Welding Process
- Water Cooled GTAW / TIG Welding Process

Advantageous

- Copper heat exchanger and plastic tank which eliminates corrosion
- Compact, rugged, and easy to read water level
- Suitable for water cooled Mig and Tig processes
- Increases torch life and cable assembly
- Comes with quick coupling for easy installation

Specifications

Heat exchanger	1 row
Pump capacity	Q max 8 liter/min
Pump discharge	H max 40 m
Tank capacity	7 liter
Noise level	42 db (A)
Input phase	1 Phase
Cooling capacity (RT = 22° C)	370 watts at max. flow
Dimension (L x W x H)	530 x 270 x 355 mm
Weight	17 Kg

Suitable Water Cooled Torches

GMAW / MIG Ergoplus 500

GTAW / TIG

SINTIG 18

SINTIG 20

Item Code	Item Name	MoQ
101.12.003	D 300 - Water Cooler Machine	1 Set
	• Quick connector	
	• Quick disconnecter	

Standard Accessories

517.01.033	Hose Clamp 1/2"	2 Pcs
------------	-----------------	-------

Optional Accessories

A water flow cut-off switch

Protect the torch from overheating in the event of insufficient liquid flow.
