

Plasma Cutting Torch - Ergocut A81 - 6m - 1/4G

Advantageous

- Pilot arc Plasma cutting torch technology
- Protection, the torch head is integrated in the plastic handle
- Light Weight, the integration of the torch head in the handle has a lighter weight
- The ball and socket joint make the torch movement is more flexible
- Seal, provide an effective barrier against the entrance of cutting dust inside the handle
- Electrical Safety, the spring pins, which control electrical safety with the nozzle open, are no longer built into the torch body but inserted in the handle. So to change a single pin, it is no longer necessary to replace the whole torch head
- Ergocut handle is more ergonomic in the market today

14	203.36.018	Flowmeter - Ergocut A81	1 Pc
15	203.36.019	Circle Attachment - Ergocut A81 / A151	1 Pc

Specifications	
Severence Cutting	25 mm
Quality Cutting	20 mm
Voltage Class	M
Standard Length (m)	6
Air Consumption	155 l/min
Air Pressure	5 bar
Duty cycle 60 %	80 A
Duty cycle 100 %	60 A

Key safety Trigger, simple - immediate - reliable - evident - ambidextrous, these are the characteristics of the new safety device installed by Trafimet in ERGOCUT Torches for Plasma cutting, considering the more pressing demands for safety in the place of work.
