

## Shear, 500 W - S 2.5

**Precision Metal Gear Box**  
Maximum durability

**Lock Switch, On-Off**  
Maximum user safety and control

**4m Quik-Lok™ Cable**  
Quick and easy cable changes reduces downtime

**Safety Hand Guard**  
Complete user safety

**Cutting Table**  
Maximum cut accuracy

**Four Sided Reversible Blade**

### Advantageous

- Fast cutting plate shear suitable for straight and curve cuts up to 2.5 mm in steel
- Cut out carbon brushes
- Ergonomically designed motor housing for best user comfort
- Lightweight and handy for cutting steel plates of up to 2.5 mm thick
- Accurate and burr free cutting
- Blade head with easy to change four sided blade - for a blade that is always sharp
- Die cast magnesium alloy gear casing for low vibration running and a long working life
- Safety hand guard and easy handling from slim - line motor housing
- Precision metal gearbox and cutting table with four sided reversible blades

Item Code	Item Name	MoQ
134.20.004	Shear, S 2.5	1 Set
+ Allen key 3 mm , allen key 4 mm, four sided blade for shear S 2.5, hand guard, feeler gauge, power cable 4 m		

### Specifications

Power input	500 Watt
Cutting capacity in steel plates of up to 400 / 600 / 800 N/mm2	2.5 / 2.0 / 1.5 mm
Cutting capacity in aluminum up to 250 N/mm2	3.0 mm
Max. cutting speed	5 - 7 m/min
Min. cutting radius	20 mm
Rated load strokes / minute	1.350 SPM
Dimension (L x W x H)	270 x 80 x 155 mm
Weight	2.2 kg
