

Arc Timer

Advantageous

- A small palm-size tool that measures actual arc burning time from any welding device. It is intended for developing welding work processes and improving productivity for individual welding machines
- With the ArcTimer you get accurate and actual data about arc burning time, which helps you develop your production so that it leads to actual productivity improvements
- More productivity with the arc time measuring device
- Attached to the welding or earthing cable and it uses the current running in the cable to measure the arc time. When welding starts, the device begins to record the arc time. You can see the time on the display in hours with an accuracy of two decimals. The arc time reading on the display increases, until you reset the device by pushing the button under the display

Specifications

Measured current range	20 - 500 A
Cable diameter	50 - 95 mm ²
Battery lifetime, minimum	5 years
Index protection	IP23
Operating temperature	-10 ... +50 °C
External dimensions (L x W x H)	92 x 82 x 32 mm
Weight	215 gram

Item Code	Item Name	MoQ
202.20.001	Arc Timer	1 Pc
